Can I operate a day care in my home?

Yes. The zoning ordinance allows the care, supervision or guidance of no more than six individuals, counting those who live at the site of the home occupation.

A home occupation day care is not subject to the 25 percent of the total floor area restriction, or the 750 square feet of floor area restriction imposed on other home occupations. The day care may be conducted outside on the premises using yard furnishings customary to the residential setting. Additional traffic generation from one delivery and one pick up of each individual each day shall be considered within the limitations above.

In order to have greater than six individuals at a home daycare a special exception by the Board of Zoning Appeals (BZA) must be made. BZA deliberations shall include, but not be limited to, the following items:

- The size of the residence and the outside recreation area.
- Parking and vehicular access to the residence and its ability to accommodate the drop-off and pick-up of the additional individuals.
- The stated opinions of the surrounding property owners.
- If requested, the acceptability of having an employee who is not a resident of the dwelling unit.

No special exception may be granted for a home occupation day care for the following:

- Care of more than 12 such individuals;
- No special exception for a home occupation day care may extend beyond the operator or site originally granted the special exception.
- The care of both children and adults at the same location.
